

UTUUC Member Auction 2019 - Be a Smart Bidder!

Once you log in, select **Catalog Grid** view to see these tabs to help you bid smart:

- Avoid scheduling conflicts – use the Dated Events link to view ALL categories of dated offerings listed chronologically. You can also consult the Auction Calendar to see dated events along with other important UT dates and major holidays. (Tab at the top of page).

- Click on the My Bids link to see all your bids that are still in contention for an auction item. **Important:** your bid(s) will show up here unless it has been “bumped” from contention by higher bids. **TIP:** After placing your bids, print a copy of this list and compare it to your My Bids list as the bidding period continues. You can easily see if your bid(s) has been bumped. If you decide to rebid a higher amount, your new bid will replace the old one.

- The Favorite Items link will display your wish list of all the auction items you marked with “Add Favorite” when browsing the catalog. It’s an easy way to find those items again without searching the whole catalog.

- If you made Win it Now purchases, they can be seen on your account statement. They will NOT show up as bids.

- Items have been added and dates/times of some events may have changed since the paper catalog was issued. Be sure to consult the current online catalog!
